RESEARCH REPORT

Tips for Choosing a Topic

- Whom do you see as your audience?
friends and classmates? readers
who are unfamiliar with your topic?
readers who already know a lot about the
topic?

- What is your main purpose for
writing? To inform and
entertain? to shed light on an
important topic? to set the
record straight with regard to past events?

- How will you publish your report?
- What will your topic be about:
something you are curious about? a
time in history or science? how things
work? an important issue in your
community?
